Nevada City Nugget

COVERS RICHEST GOLD AREA IN CALIFORNIA

Vol. 13, No. 82. The County Seat Paper NEVADA CITY, CALIFORNIA The Gold Center FRIDAY, OCTOBER 13, 1939.

From the Californian, March 15, 1848:
The Liberty of the Press consists in the right to publish the Truth, with good motives and for justifiable ends. —Alexander Hamilton.

Thinking Out Loud

By H. M. L.

We hear that in Los Angeles odds of 2 to 1 are being offered that Ham & Eggs will carry when it is voted on four weeks from next Tuesday. But then there have been a few hundred thousand deluded folks who have been gambling it will carry for the last two years. At least their dues have kept two Utopians slick and fat. In the meantime we notice that the long arm of the law is reaching for the two promoters of the hoax. They are wanted on a charge of rendering a false statement of their campaign expenses. Wouldn't it be "turrible" if the precious pair were inside looking out when it came time for Governor Olson to appoint one of them dictator of the financial and economic life of California. In all probability, however, they will manage somehow to make a statement of expenses that will pass muster and be ready with a new plan on November 8, after the election has burst the bubble a second time.

As for those Los Angeles odds, very likely they are saying in Los Angeles that the Northern California odds in favor of the scheme are 2 to 1. We have known things like that to happen. There is plenty of even money hereabouts against Ham & Eggs but precious little offered by its supporters.

Trotting right along beside Ham & Eggs is another little sister of the poor, No. 2 on the ballot, which would promote chiropractors into a full fledged medical practice. This measure would not increase the knowledge of medicine or the time spent in chiropractic training. At present a good chiropractor spends as much as one year in learning his business. This proposed measure would give chiropractors, male and female, carte blanche to attempt to deliver babies, saw human bones, sew up punctured intestines, pull teeth, and, in short, to practice medicine, dentistry, optometry, osteopathy, and Chinese herb doctoring.

Numbers 1 and 2 on the ballot are in fact, admirably matched team mates. No. 1 provides that we shall elect (by voting for Ham & Eggs a dictator to establish a state bank, and impose a tax that will amount annually to one quarter of the entire gross income of California, who will substitute phoney money for U. S. currency, who will close the schools and open the lunatic asylums, (for it takes a lot of real money to care for the mentally ill), and generally raise hob with our economic life. Then, while we are plastering real money stamps on the back of worthless printed matter, along comes an army of chiropractors all set to take the pain out of our necks. That is, if No. 2 is adopted, and it shouud be, if No. 1 gets by.

Because, if No. 1 is adopted there will be a slather of sick people in California. The dearly deluded folks that believe in Ham & Eggs and something for nothing will be the sickest, and we will need a lot of doctors, both those that spent seven years in getting their M. D's, and those that spent six months or a year in learning to do a good job of massaging.

It will take some little time, of course, to prove the fallacies inherent in both measures, if they should indeed meet approval at the polls. But Pollyannas can always find the silver lining. First, for instance, the reaction will be of such cataclysmic proportions that political and economic charlatans will for some years be unable to raise their heads safely in California. When it is learned that "warrants" unbacked by state credit are worth no more in California than they were in Alberta, Canada, the resentment of the deluded will be punishment enough for the promoters of this hoax.

Communists who have heartily endorsed Ham and Eggs, will have again been confounded and will seek some new confusion with which to plague our democracy. Our state and county officials having subsisted on their back yard truck gardens for a year or so, will get back into the cash money jobs. Peace officers will round up the mentally defective after their long vacation, and remove them from circulation. The "reluctant school boy with shining face" will return to his spit-balls and books when the schools re-open after the Ham and Eggs spree. Inbusiness houses, sentimental chaps will hang

(Continued on Page Two)

GAME WARDEN MAKES IT WORSE FOR MR. WIRTS

Game Warden Earl Hiscox arrested C. E. Wirts of Grass Valley Sunday on Shake Ranch Hill in the Washington Ridge section for hunting deer without a license or tags. He was taken before Judge Charles Morehouse in the Nevada Township Justice Court and fined $35. Judge Morehouse was acting for Judge Walter L. Mobley who is in San Francisco.

Officer Hiscox checked off ten deer for hunters in the Washington Ridge section Sunday. A huge mule tail deer was killed near Bear Valley Sunday by an Emigrant Gap man that weighed 228 pounds dressed.

It is the belief of Game Warden Hiscox that the mule tail deer are working down and over from the east side of the Sierra Nevada range into this section. Last winter he counted 37 out of 87 deer near North Bloomfield that were mule tail. During a storm last winter he saw one of the big bucks at Pet Hill below Grass Valley. Sportsmen coming in from the mountains state it is breeding season for deer and recommend that a change be made in dates the opening season to be from September first to October first for this section.

Hunters continue to bring in bucks and before the closing date next Sunday there should be many more brought down.

Dal Larsen killed a buck in the Relief Hill section Sunday. Another group bringing in a 160 pound buck Monday afternoon were Tom Kistle, Leonard, John Ghidotti, Frank Williams, Gene Barneri, Carl Tobiassen, Will Casci. Will Casci of Bakersfield shot the deer. He is here on his vacation visiting his parents, Mr. and Mrs. Domingo Casci, and enjoying a hunt.

J. M. HOFF INTERESTED IN LUCKY BOY MINE

The old Lucky Boy mill, completely reconditioned is practically ready to go into operation. It will treat 300 tons of silver-lead-gold ore per day Two long cross cuts are to start in the near future in the Lucky Boy. A five mile water line and extension of electric power to the property have been completed. The plant is controlled by the Nevada Customs Ore Company, headed by J. N. Hoff, former Nevada City mine operator, and his associates.

P. G. & E. STARTS 5-MILE TUNNEL

With a construction crew of 125 "hard rock" men and a work program that will continue into midsummer of 1941, the Pacific Gas and Electric Company has started the drilling of a five mile tunnel on the north fork of the Yuba river, 35 east of Marysville. The tunnel, with a bore nine and one half by eleven feet, is to cost approximately $1,500,000. Carrying water from the river to Colgate power plant, it will replace seven and one half miles of wooden flume which has served this purpose for the past 35 years.

The tunnel will eliminate heavy and steadily increasing expense for maintaining the flume and will also save water now lost through leakage. Most of the bore will be through hard self-supporting rock, but where necessary cement lining will be used.

An eleven-mile tunnel of similar bore dimensions was recently completed on the Stanislau river in Tuolumne county. It also replaced a wooden flume and was built to reduce maintenance costs and conserve water for the company's hydro-power plants in that area.

CHAMBER DANCE SET FOR NOV. 25

The Nevada City Chamber of Commerce general committee announce their dance, set for Saturday, October 28 has been changed to Saturday, November 25. This was done in order not to conflict with the Bowl of Rice dance, a worthy benefit affair to be given in Grass Valley on October 28. The Chamber of Commerce has planned for an hour's entertainment to precede the dance.

World Electrified And History Recorded By Small Newspaper Item

GOLD MINE FOUND.—In the newly made raceway of the Saw Mill recently erected by Captain Sutter, on the American Fork, gold has been found in considerable quantities. One person brought thirty dollars worth to New Helvetia, gathered there in a short time California, no doubt, is rich in mineral wealth, great chances here for scientific capitalists. Gold has been found in almost every part of the country.

Reproduction from a copy of the Californian, San Francisco, March 15, 1848.—Collection of H. P. Davis.

It is of interest to record that the Californian, California's first newspaper, so auspiciously inaugurated in 1846 at Monterey, and later moved to San Francisco, published in 1848 the first announcement of the discovery of gold at Sutter's mill, and that about six weeks later the paper suspended with a final issue in which the editor said:

"The whole country, from San Francisco to Los Angeles, resounds with the sordid cry of gold! gold! gold! While the fields were left half planted, the houses half built, and everything neglected but the manufacture of picks and shovels, and the means of transportation to the spot where one man obtained one hundred and twenty eight dollars worth of the real stuff in one day's washing, and the average for all concerned is twenty dollars per diem."

Sincerely yours,
H. P. DAVIS.

Editor's Note: It is with sincere sympathy that an editor of 1939 salutes the shade of an editor of 1848, and condoles with the journalist ghost on the ruin that visited his enterprise as the result the "sordid cry" that rose speedily upon the discovery of virgin gold in a mill race nine decades ago. Wherever his spirit may now reside, assuming that he still maintains an interest in matters of this world, it may comfort him, even though the sordid cry still resounds and human nature remains unchanged, to perceive that upon the ruin of his small but worthy enterprise, and upon other ruins too, there has been erected a commonwealth of splendid proportions on the tablets of which his name is inscribed and enshrined.

LAST RITES FOR FOREST PENROSE TO BE HELD SAT.

The body of Forest E. "Potty" Penrose, widely known and popular resident of Nevada City for more than 30 of his 36 years, will be laid to rest Saturday, October 14. Services will be held at the Holmes Funeral Home at 2 p. m.

Surviving him is his mother, Mrs. Alice Penrose; and three sisters: Mrs. Frank Ghidotti, Mrs. Ed Christensen and Miss Rachael Penrose.

He was born July 17, 1903 at the little town of Relief Hill. Shortly after he came to Nevada City and when he arrived at school age he entered the elementary schools of this city.

Forsaking any formal education other than elementary school, he entered the employment of the Alpha Stores as a salesman and truck driver. He terminated his connections with Alpha several years ago and since had been employed at several jobs in this locality.

His death came as a shock to his hundreds of friends who did not know of the seriousness of his condition. His death culminated an illness of more than a month.

He was a member of Pennsylvania Engine Co. No. 2 and at one time served as chief. He was also a member of Nevada Lodge No. 13 F. & A. M.

STOPS RUNAWAY CAR

Myers Mobley, of Dickerman's Drug Store, dashed out yesterday afternoon and stopped a run-away car of Tom Widauf as it had started moving down the street without a driver. The brakes slipped evidently and as it gathered momentum it struck a car on the left and thence bounced back as Mobley landed on the running board to stop it.

Mrs. Helen Emlay, teacher in the San Francisco schools and daughter of Mr. and Mrs. George Calanan, of Nevada City, was heard presenting the San Francisco school program over the radio on Wednesday.

CCC BOYS BACK IN GRASS VALLEY

The CCC enrollees at Hobart Mills have all been moved to Camp Grass Valley except a small detail who are cleaning up several small jobs about the camp at White Cloud. New enrollees are coming in and company strength for Camp Grass Valley will be about 185 men.

C. M. Gwin, assistant forest supervisor, stated yesterday there are about 20 CCC boys employed on the Hour House road below Alleghany. The forest servce is cooperating with Supervisor Elton Carvin of Sierra county in re-routing a portion of the road between Nevada City and Alleghany and it will not only make an easier grade, but place the road along the ridge and do away with deep snow hazards A portion of the highway is where snow can be handled by snow plow. The sun will also melt it more rapidly along the sunny slopes.

As soon as the Hour House road work is completed the CCC boys will be moved to the Michigan Bluff road. The limited funds allowed for forest service by the federal government gives only a small amount each year for this work and makes it necessary to extend the work several years. The forest service has been working on this new road four or five years already.

GOLDEN DAWN TUNNEL

Three shifts are employed drifting in a long tunnel on the Golden Dawn property in the Selby Flat district north of Nevada City. Search is being made for an old channel which produced gold in early days. The claims are the Golden Poppy, Fort Washington and Mountain Side. William Newton is in charge of the property and has six men employed. Mrs. Catherine Cooper owns the ground and has leased it to the new operators.

Bill Williamson, local garage man has gone to San Francisco to spend the week end in that city and to visit Treasure Island.

ELKS WILL CELEBRATE FORTIETH ANNIVERSARY

Today is the 40th birthday of Nevada City Lodge No. 518, B. P. O. E.

For it was just 40 years ago that big delegation from Sacramento, San Francisco, Oakland and all the Northern California cities came here to induct the 37 charter members into the great Elks fraternity.

To commemorate that occasion, the local lodge will celebrate with a turkey dinner served in the banquet hall, tomorrow night. Elks from all over Northern California will be present as well as some of the old-time members.

P. G. Scadden, one of the early past exalted rulers is the head of the committee that is preparing for the celebration.

Tonight there will be a regular meeting of the lodge, with an initiation. Exalted Ruler Cliff Merriam and officers and members of the lodge urge every member to attend both the meeting and the dinner.

ROTARY IS GIVEN SINGING LESSON

Mrs. Marian Libbey yesterday gave the Rotary club some elementary exercises in choral singing. A group of high school girls from Mrs. Libbey's choral classes first rendered three charming selections just before one o'clock. The club was very appreciative both of the student singing and the fine training evident under the direction of their leader.

The usual half hour which is given over to enterainment was occupied with songs from the Rotary song book. Mrs. Libbey suggested that it might be possible in the club to organize part singing since several members of the club can sing either base or tenor. The songs were old favorites with the club and under direction volume and harmony were much improved.

H. E. Kjorlie, superintendent of schools, called attention to the fact the high school is offering several courses of value to adults and invited members of the club to enroll in whatever course may meet their needs.

MANY MOURN AT RITES FOR FRENCH CORRAL BOY

The body of Melvin Robert Browning, 14, was laid to rest Wednesday.

With tears streaming down the faces of young and old alike, many of the youth's relatives and friends heard Rev. David Ralston deliver a comforting eulogy to the child who lost his life in a tragic hunting accident near his home in French Corral last Sunday afternoon. Rev. Ralston praised the youngster for the qualities of manliness that he exhibited in his limited life span.

He was the son of Mr. and Mrs. Arno Browning.

The casket was borne to its final resting place in Pine Grove cemetery by LeRoy Petitt, Lowell Petitt, Clyde Robertson, Albert Hosking, Jack Jones and Lloyd Leal, boy-friends of the deceased youth.

C. H. M. A. TO MEET IN COLFAX SAT.

The California Hydraulic Mine Association will hold a meeting in Colfax Saturday afternoon. The members will discuss the Bear River project. George Hallock, will preside at the meeting.

ASSESSORS UNANIMOUSLY OPPOSE "HAM AND EGGS"

The County Assessors of California are on record as unanimously opposing Proposition No. 1 (Ham and Eggs.)

This fact was learned from County Assessor John M. Hammill, who just returned from the County Assessor's convention in Oakland. Fifty four of the 58 assessors in the state of California were present and took part in the discussion.

According to Hammill, a strong set of resolutions opposing No. 1 was adopted without one dissenting vote.

Sheriff Don Cox of Sacramento county now a visitor here will enjoy a deer hunt with Nevada City friends before the season closes.

TWO HIGHWAY COMMISSIONERS TO TOUR ROAD

Mrs. Margaret Lambert, Sierra county treasurer, in a letter to H. F. Sofge, yesterday tentatively set the date for the visit of the two state highway commissioners who have agreed to tour the Nevada City-Downieville highway—, for next Friday, October 20. This date has been suggested to the two state highway commissioners and Mrs. Lambert suggests that the Nevada City Chamber committee and members, and the Downieville citizens interested in improving the highway meet at the St. Charles Hotel to discuss matters over a turkey dinner.

It is proposed that the two commissioners shall also take a trip over the Yuba Pass to Sattley so that they may see the road which the Sierra county residents are anxious to have kept free of snow during the winter.

Regarding the suit, which Downieville residents have brought against highway engineers for damages of over $90,000 as a result of the flood two years ago in December, which they allege was caused by the fact that the new highway bridge built through the town was not adapted to accommodate floods, H. F. Sofge declared the chamber had no interest in it whatever. On a recent visit of a chamber committee to Sacramento, in which a conference was held with the state highway commission, the suit was mentioned as an obstacle to putting any money into road improvement. The commission was reported to have said that the suit must be adjusted or quashed before $94,000 earmarked for Downieville highway improvement would be spent, since it was possible that the suit might cost the engineers involved that amount.

However, Sofge declares that is something with which the Nevada City Chamber of Commerce is not concerned. The part of the Chamber is to aid if possible in obtaining improvements in the Downieville road, especially in the dangerous descent into the North Yuba and South Yuba canyons. Great improvements could be made in the way of taking out the most dangerous curves for a moderate expenditure. The road could be made much safer than now by the expenditure of less than $100,000.

An answer regarding the day the commissioners will appoint for their visit and tour of the road is expected shortly. The commissioners who have indicated they make the tour are Iener W. Nielson and L. G. Hitchcock.

MINER ADMITS KILLING PARTNER

Deputy Sheriff S. N. McCormick of Downieville yesterday revealed that George Retzer, one of the owners of the Brown Bear mine, fifteen miles east of here, is in the county jail pending investigation of the fatal shooting of Harry E. Boyington, 65, Retzer's partner.

The deputy said Retzer surrendered at the county jail Wednesday night and admitted having killed Boyington.

The authorities said Retzer admitted having visited Downieville Wednesday and disposing of a quantity of gold from the mine. He returned to the mine with a quantity of wine.

Retzer is quoted as saying he, Boyington and an unnamed third man engaged in a drinking bout, with the result the partners quarreled.

Deputy McCormick said Retzer related he called Boyington a number of names whereupon the latter grasped a hammer and threatened to use it as a weapon.

"Then I let him have it," Retzer is quoted as declaring, indicating he had shot his friend with a slug from a 30.-30 calibre rifle.

Sheriff W. B. Johnson and Coroner D. W. Deedwater left early yesterday for the Brown Bear mine to recover Boyington's body and to make an investigation upon the spot.

Mrs. George Kelleher and son, Carl, of San Francisco arrived yesterday for a visit with Mrs. Martha Dillon. Mr. Kelleher arrived today. On their return Sunday Mrs. Dillon will accompany them and spend the week in San Francisco and on Treasure Island.

"The Purge Looms"

(Re-printed from the Quincy Bulletin)

The promoters of Ham & Eggs—W. H. Kindig and Roy G. Owens—aren't so dumb that they really think the 30-Thursday warrants part of their scheme will work.

Not that they care, for it is the part of the scheme that will get votes for them, which is their principal interest right now.

Collecting thousands of dollars every week in the form of dime contributions, Kindig & Owens well know the value of REAL money. They must know that the warrants will turn out to be a delusion. But the rest of their amendment gives them dictatorial power over the state of California, which is their real purpose and aim. They have made sure this power will be reposed in themselves alone by providing that only they can be named as administrators of the act, and only they can name their successors.

After they are in the saddle, with more power than the governor or any other American official ever dreamed of holding, they should worry whether the warrants are worthless.

They will still control the bank in which all public monies must be deposited.

They will still have the power to call elections at their whim.

They will still be lords of the law that forbids labor to strike.

They will be able to sneer at the courts.

The 30-Thursday feature of the amendment is not the dangerous part of Ham & Eggs.

The dangerous part is the creation of a dictator of California.

After that, the purge.

The Last Straw

If there has remained any public doubt as to the necessity of revising the Federal government's policy toward labor relations, the latest antics of the National Labor Relations Board should point sharply to that necessity. The Board has ordered an employer to hire and give two years "back pay" to two persons who had never been employed by him.

The Board bases the order on its "findings" that the two had been discriminated against when they filed applications for jobs. According to the Board, the applications had been turned down by the employer because of their past records, and, in the eyes of the Board, the past records did not justify the employer refusing to hire them.

Public reaction to this high handed dictatorship in the matter of employer-employee relations is likely to be one of disgust with this brand of meddling in the private affairs of American citizens. It may easily prove the last straw of many piled high on the back of public patience by the meddlers since they undertook four years ago to control normal dealings between the employer and the men and women on his payroll.

Certainly an employer still retain the right to choose those who will work for him. Until recently it was about the only right he still retained, insofar as the conduct of his business was concerned. But now, it appears, he is to be forced by dictatorial decree to open his factory door to anyone who seeks a job, no matter what his past record may be. If that is the situation, there is a very real threat to the peaceful routine of earning a living, for those benefited by the new order are those whose business it is to foment strikes and violence—at the expense of those already employed, the employer and the public at large.

This precedent-shattering theorizing by the NLRB should be an added incentive to amend the National Labor Relations Act, and attach greater importance to a thorough-going investigation of the Board by Congress.—Contributed.

JUST WONDERIN'

I wonder dear editor, truly I do,
If Newpaper Week brought to you
Bright seasons of pleasure in plentiful measure,
Or days that were dreary and blue.
I hope your subscribers remembered you kindly
And paid all subscription now due,
And those public advisers, the wise advertisers,
Signed many fat contracts with you.

I wonder how often the reading public pauses to consider the amazing accomplishments of the American free press and the vast amount of energy, mechanical and human which is used in making these accomplishments possible.

Newspaper Week comes but once a year and it should be a week of sincere appreciation, upon our part, of the men and women who, throughout the nation, ply their arduous tasks in order that the American citizen may receive accurate news of daily events, needed information upon many varied subjects and instruction upon the rapidly changing human drama.

Hats off to ye editors, whether they direct the destinies of great cosmopolitan journals or formulate the policies of small town newspapers, they are performing tasks of the utmost importance and their daily efforts merit our sincere sympathy and understanding. I hope Newspaper Week will be a happy and prosperous one for the newspaper lads and lassies and that rays of gladness may fall continuously across their devious pathways.

I wonder at the strange symptoms displayed by those citizens and groups of citizens who become infected with that most contagious of mental disorders, muddle-brain. First they become allergic to banks. newspapers, corporations, and other American institutions; follows a feverish desire to tear down and set up fearsome ogres in their places and at this point the mania becomes uncontrolable and reason departs. These sporadic outbreaks of dementia are most alarming—especially when accompanied by ulterior motives. and of these manifestations sane members of society should beware.

I wonder if the democratic nations will continue to refuse Hitler's "outstretched hand" until sure that his is not an itching palm.

I wonder if the European war will be over before we can get our neutrality laws adjusted to fit the emergency.

I wonder now that traveling abroad has become—rather difficult, if Americans will spend more leisure time in touring their own most interesting country, and if Californians will begin to appreciate the privilege of winter travel in a realm of historic and romantic values unsurpassed.

Uncle Silas says: "Wonder if I can get a job affixing stamps to the warrants collected by high salaried officials of Sham and Dreggs—that is of it wins out in the November election.

—A. MERRIAM CONNER.

BUSINESS AS USUAL

THINKING OUT LOUD

(Continued from Page One)

above their desks a single "warrant," framed in oak.

As the phoenix rises from its ashes, so California will rise again from its Ham & Egg Omelette. The banker, the investor, and the tax payer, who are now the targets of bird-wit vituperation, will survive the era of Ham & Egg devastation and economic chaos. For at least a generation other states will be cold to the wild eyed prophets of a modern millennium. When some screwball mounts the rostrum and yells: "Quit yer working folks and pull yerselves up to heaven by yanking on yer boot straps," the rest of the states will laugh and say: "Oh Yeah! California tried that." Thus good can come from evil.

LONGER DUCK SEASON

Mining men coming down from the Mt. Oro section east of Nevada City early this week report two flights of wild geese passing over them. The birds are flying from the far north to the rice fields and the swamps in the Sacramento and San Joaquin Valleys indicating an early winter. Reports are there are more ducks than usual.

MRS. ANNIE BROWNING ILL

Mrs. Annie Browning of Boulder street is quite ill. She has not been well for some time and the tragic hunting accident and death of her fourteen year old grandson, Melvin Sunday, came as a severe shock to Robert Browning of French Corral her. Her many friends hope of an early recovery for this highly esteemed woman.

ARE YOU WILLING TO PAY YOUR SHARE?

• • •

HAM AND EGGS WILL TAKE 1/4 OF ALL YOUR EARNINGS!

Count the cost, California taxpayers—and count it carefully.

For if 30-Thursday becomes law, YOU pay!

President Roosevelt warns: "It (30-Thursday) would constitute a 25 per cent income tax which would fall far heavier on the poor than on the rich."

Working Californians would pay the piper for every "dollar" warrant issued to the privileged class of non-workers which would be set up under this preposterous plan.

And in addition, a new 3 per cent gross income, or gross transactions tax — a vicious pyramiding tax, applying to each turnover—would be levied against every cash transaction. That would mean . . .

A NEW TAX ON FOOD
A NEW TAX ON CLOTHES
A NEW TAX ON BUSINESS
A NEW TAX ON THE FARMER
A NEW TAX ON THE CHURCH
A NEW TAX ON YOUR PAYCHECK

Don't be fooled. Don't be careless. Don't fail to count the cost. If 30-Thursday passes, YOU must pay the check!

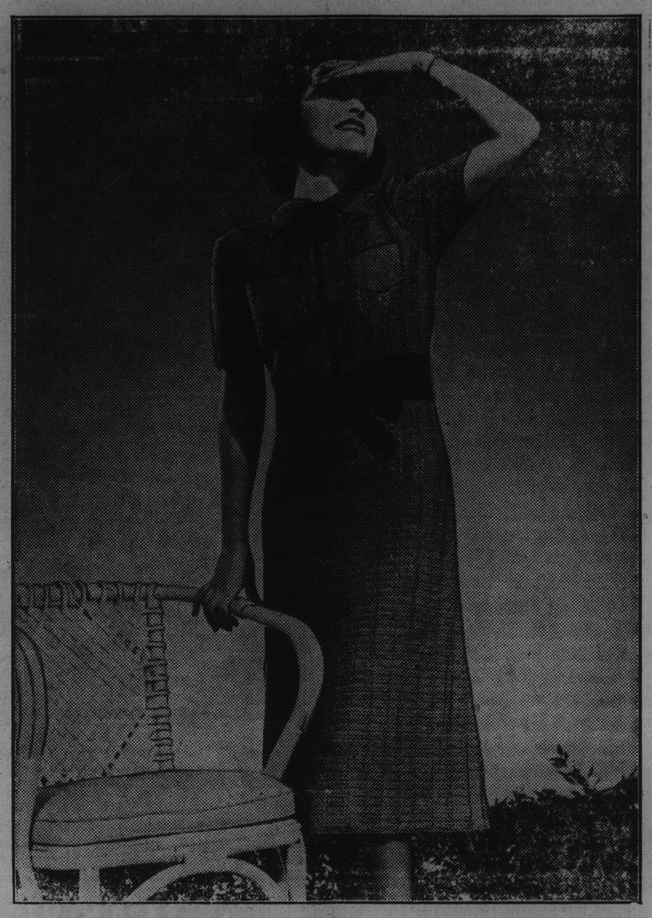
Crochet for Economical Smartness



A LITTLE ingenuity, and you can be economical as well as fashionable. Here is a crocheted dress that you can make yourself for a total of $3.20. It's style-right in every detail, and, crocheted of lustrous mercerized crochet cotton, could be entered in the Third National Crochet Contest this fall. There it might win one of the many cash prizes, or even the title of National Crochet Champion. Directions for crocheting it, and details of The National Crochet Contest may be obtained by sending a stamped, self-addressed envelope to The National Crochet Bureau, 522 Fifth Avenue, New York City. Specify dress No. 1173.

URGES "NO" VOTE ON FANTASTIC HAM AND EGGS

BERKELEY, Oct. 12.—Dr. Von T. Ellsworth, tax and legislative representative of the California Farm Bureau Federation, declared in a statement made public that "a depression far worse than any ever before experienced by any state will be faced by California if the proposed 'Ham and Eggs' amendment is passed in November."

Dr. Ellsworth, recognized as a national authority on tax problems and who has just completed an exhaustive study of Proposition No. 1. In a pamphlet he answers: "What harm will come from trying the 'Ham and Eggs' amendment?" with the following terse statements:

"It will disillusion the people and bankrupt the state.

"The mere prospect of 'easy money' is attracting large numbers of persons from other states, who hope to qualify in California for a living at someone else's expense.

"It will bankrupt California government if permitted to operate for any period of time.

"The experiment is extremely costly. It authorizes an immediate $700,000 general fund expenditure and the issuance of $20,000,000 in bonds which must ultimately come out of the pockets of the people.

"It imposes new and iniquitous taxes which must be paid.

"It creates new and unnecessary governmental institutions and commissions which add to the cost of government.

"It takes from the people governmental control, which, when lost, is seldom regained.

"In recommending to the voters of California that they vote 'NO' on Proposition No. 1, November 7, I am asking them to vote against the most fantastic, impossible and destructive measure ever to be presented to the people of California for consideration."

TWO GORDON BETTLES ENGAGED IN MINING

Some confusion is caused among the mining fraternity because of the fact that two cousins, Gordon M. Bettles of the Philippine Islands, formerly of Nevada City, and Gordon W. Bettles, of Nevada state, are both mining men.

Gordon M. Bettles, whose family reside on Washington street in this city, is in the Philippine Islands and is connected with the Philippine Engineering Corporation of Manila.

Gordon W. Bettles and associates are erecting a mill below the lease recently acquired on the incline tunnel workings of the La Planta gold mine in Nevada state. The plant, brought from California, has a daily capacity of fifty tons. The tunnel is 2,600 feet long and is connected with surface workings of a 400 foot shaft and approximately 20,000 tons of commercial ore are estimated available to mill.

MAPLES IN FALL SUITS

The maples on upper Nevada street have received a touch of autumn and the leaves are turning brilliant red. Emil Ott's father brought the trees from the east and planted them in early days. Mrs Grace Nilon and late husband, Frank Nilon, purchased the lot from the Ott family and the maples were there then. Mr. Ott's father also planted a silver elm and linden trees along the street.

Mrs. W. G. Shand of Weaverville was a business visitor in Nevada City yesterday. She was called to Grass Valley early this week to be at the bedside of a sister, Mrs. Phelps, who is critically ill. Mrs. Shand is a former Nevada City resident.

LOAD OF RAILS FOR RELIEF HILL

C. E. Clark of the Relief Hill Mining company was in Nevada City yesterday waiting for the arrival of three truck loads of rails being brought from Hobart Mills for use at the mine. They will be used in riffles in sluice boxes. There are 100 tons in the lot. The steep grades at Donner Summit, and coming west out of Bear Valley gave some trouble. Mr. Clark met the trucks at Nevada City and directed them over the road to Relief Hill.

Last reports from Rolfe Buffington who has been quite ill for sveral days is that he is somewhat improved.

CAMPTONVILLE NOTES

CAMPTONVILLE, Oct. 12.—Miss Harriet Church came up from Marysville last week on a short visit with her parents.

Mr. and Mrs. Fred B. Hanson left a few days ago for Wenatchee, Washington where they will spend the winter.

Dispatcher Bob Culver of the local forest service staff returned a few days ago from a trip visiting his family at Berkeley.

Mr. and Mrs. Edward A. Espinosa and family have moved to Pike City where they will reside.

Mr. and Mrs. Bernie Shermantine left a few days ago for San Francisco after spending two weeks on a hunting trip in this vicinity.

Beatrice Wilcox who spent the past two weeks visiting her old home here left Thursday for San Francisco.

Eugene Zorin arrived a few days ago from Texas to join his mother Mrs Leo Chatfield and sister Miss Etta Zorin whom he has not seen for several years.

Mr. and Mrs. A. C. Molen and family have moved into the Meek home on Main street.

Samuel B. Kasper came down from the Sierra Buttes a few days ago and will spend the winter here after being lookout for the forest service at that place for the past season.

The Montgomery brothers arrived Friday from San Francisco with a small quartz mill which they are installing at the American Flag mine.

Albert H. Hamilton of Sacramento was in town over the week end. His daughter Pattie left with him. She has spent the past several years residing with Mrs. Rachael M. Labadie at the Hotel Francis.

Erle Pauly left Sunday for Oakland where he will remain for the week, representing Gravel Range Lodge No. 59 F. & A. M. of this place at the annual Masonic Grand Lodge. His wife accompanied him and will visit relatives.

Fair Statuary

One of the unusual statuary effects grouped around the Fountain of Western Waters at the Golden Gate International Exposition is the above pictured Polynesian figure, created by Brents Carlton.

CAMP PAHATSI READY FOR BIG WINTER CROWD

Working for the fifth consecutive week end at top speed a group of eight men completed for the fall season the work projects at Camp Pahatsi in Donner Summit country.

During the past several weeks the council has been faced with the necessity of installing wiring and electrical appliances for the P. G. and E. power which was turned on this week. Included in the equipment are two large heavy duty ranges obtained in Auburn and repaired by the P. G. & E., two electric grills, three hot water heaters which have been connected in series so that all parts of the camp will now have plenty of hot water, wiring for lights and other appliances. In addition to these the well pump operates off an electric motor.

Dynamiting of over a hundred rocks in the lake to make it more enjoyable for swimming and boating was accomplished in a three weeks period. Over a hundred pounds of dynamite were set off by Del Kalbaugh of the Nevada Irrigation District.

The sixty one bunks in the upstairs section of the lodge were strengthened and repaired for a heavy winter camp use. Covers were placed on some of the mattresses and straw ticks completed the balance. A lounge room for men and scout leaders is being arranged in one end of the lodge and all possible conveniences are being installed for the complete satisfaction of the winter and summer campers.

A care taker has been secured temporarily for the camp and a great deal of improvement is noted in the general appearance. Paul Phillips, scoutmaster of Troop 1 in Roseville undertook the construction of a section of rock retaining wall this fall and also went over all the windows and shutters to weather proof them against the expected heavy snow fall.

Men taking part in these projects have contributed six hundred and forty man hours of labor this fall season.

Heading the list of men working on the camp is L. H. Reynolds, camp chairman who undertook most of the electrical installation, Al Spadoni, Bob Hodkins, and C. A. Locher who worked on the electrical installation, Chet Hatch who assembled switch boxes prior to installation, George Gwin of Nevada City to connect the plumbing and Dan Kimsey of Roseville who completed the plumbing installation, Andy Blodger of Auburn who helped install the ranges and undertook the placing of skiis in shape, Bruce Kimsey and Howard Clary, members of the summer camp staff who contributed several week ends of labor.

Nearly all of the camp rowboats are now placed with a number of men in the council area who will overhaul them prior to next summer's use. Ray Minor in Lincoln is building the camp a 14 foot sail boat and it is reported that two canoes will also be given to the camp for next summer's camp.

W. T. Smart returned Wednesday from Oregon where he was called by a mining company to do some drill testing.

LEGAL NOTICES

No. 7501
SUMMONS
IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.

Action brought in the Superior Court of the State of California in and for the County of Nevada, and the Complaint filed in the office of Clerk of said County of Nevada.

H. A. SIEKER, Plaintiff,
vs.
A. O. WITTE, and JANE DOE WITTE, his wife, RICHARD ROE, and SUSIE GREEN, Defendants.

JOHN L. LARUE,
Grass Valley, California, Attorney for Plaintiff.

The People of the State of California Send Greetings to A. O. WITTE, JANE DOE WITTE, his wife, RICHARD ROE and SUSIE GREEN, Defendants.

You are Hereby Directed to Appear, and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California in and for the County of Nevada within ten days after the service on you of this Summons — if served within this county; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgement for any money or damages demanded in the Complaint, as arising upon contract, or he will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and seal of the Superior Court of the State of California in and for the County of Nevada, this 4th day of August, A. D. 1939.

(Seal of the Superior Court, County of Nevada, State of California)

R. N. McCORMACK, Clerk.

By R. E. DEEBLE, Deputy Clerk.

Sept. 11 to Nov. 13 inc.

Mr. and Mrs. Fred Sauvee returned Wednesday from about a ten day vacation in San Francisco, Treasure Island and with relatives at Palo Alto. Mrs. Clemo's brother returned with them from Palo Alto and will remain until Saturday visiting.

GOOD COOKS USE GOOD RANGES FOR GOOD VICTUALS

A successful meal is not merely a matter of good planning and careful shopping, although these important features are sometimes overlooked. A good meal depends more and more upon the gas range on which it is cooked.

The most expensive cuts of meat, the most clever blending of seasonings, may very easily go for nothing if your gas range cooks all of the flavor and tastiness out of the food you are preparing. That's why housewives have eagerly declared the new CP (Certified Performance) gas ranges the most outstanding development in the home appliance field.

Any gas range which now displays the coveted CP seal has measured up to the twenty two rigid performance tests which mark it as having "certified performance" ready to be used for the greater convenience and cooking ease of today's housewives.

How often have you longed for one of the features contained in these new gas ranges—a feature designed to do a particular job that outmoded stoves can't possibly do! You'll never again suffer the annoyance of a smoking broiler when you own a CP gas range. You'll know the joy of fast preheating ovens, reaching maximum oven heat in a fraction of the time required by ordinary ranges. And you'll have giant burners for faster cooking, providing an extra wide heat spread for large utensils. And those burners are designed to operate at extra economy when you want to simmer or to prepare food by waterless cooking—the way dieticians are recommending.

These and many more tremendous advantages are to be had in CP gas ranges now being displayed by local dealers. The Certified Performance seal is your assurance of cooking perfection.

EFFICIENT GAS RANGE DEMONSTRATED

Look for the CP (Certified Performance) seal when you buy a new gas range, to make sure that it conforms to nationally accepted standards. If you have this seal on your range, your kitchen troubles are over for all time! You can rest absolutely secure, for CP means cooking perfection.

METHODIST CHURCH SERVICES SUNDAY

Sunday school at 9:30 a. m. Roy Purchie, superintendent. There are classes for all ages. Bring the children.

Preaching service at 11 a. m. Vocal solo "Selected." Miss Helen Arbogast. Sermon "Mountain Top Experiences," pastor. Epworth League at 7 p. m. Leader, Miss Catherine McQuay. Topic, "Greatest Victory the World Has Ever Known."

Preaching service at 1 p. m. Sacred concert. Ten minutes of congregational singing of the old and new hymns of the church. Here is where you can help. Hymn, "Be Silent," (Crosby). Dr. Gordon Rodda of Sacramento. Prayer, pastor. Solo, "At Morning, Noon and Night," (Bond). Scripture reading. Solo "Just for Today," Mrs. Seth Law. Offertory. Hymn, "That's Why I Love Him," (Lorenz). Dr. Rodda. Sermonnette, "Music in the Soul," pastor. Solo "The Rose of Sharon," Dr. Rodda. By special request the solo entitled "The Stranger of Galilee," Dr. Rodda is one of the finest singers in Sacramento. He was born on Piety Hill. Do not miss this service. His accompanist is a very fine musical and a splendid singer.

Week events. Prayer meeting and Bible study Tuesday at 7:30 p. m. Read carefully the 7th Chapter of St. John's Gospel. Young people's prayer meeting Thursday at 7:30 in the parsonage. Choir practice Friday evening at 7:30 p. m. Alliance rally at Lincoln tonight at 6:30 p. m. We are hoping that a large delegation of our young people will attend.

CP GAS RANGE SAVES MONEY, TIME AND FOOD

It took a magician more clever than the Wizard of Oz to bring the magic of a CP (Certified Performance) gas range into evidence. Wherever you go today you will find that the initials CP on gas ranges stands for the apex of de luxe gas cookery.

The word "de luxe" has always represented the best in its line, but when applied to the CP gas range, "de luxe" reaches new high levels for these new ranges combine twenty two points of outstanding excellence accepted by manufacturers as the height of gas range perfection.

They especially emphasize the primary features of saving of time, fuel and food. For instance, the new standards of quick oven pre-heating, low temperature oven control, new type burners and automatic lighting of oven, top and broiler are all features of economy as well as cooking proficiency.

Splendid construction from the standpoint of durability, cleanliness and safety are also included in the high standard of Certified Performance requirements. Never before has the kitchen range presented such topnotch features for the satisfaction of modern cooking demands.

"APPROVED" CP GAS STOVE

There's a new yardstick for measuring the value of the gas range you buy today—and that yardstick is known as "Certified Performance." No gas range can bear the coveted seal of approval marked with a CP until it has first passed twenty-two rigid endurance and ability tests.

TRINITY CHURCH SERVICES SUNDAY

The Nineteenth Sunday after Trinity. 8 a. m. Holy Communion. 10 a. m. Church school. 11 a. m. Holy Baptism and sermon. The rector will preach upon: "Fathers and Mothers." Mrs. Grace Raymond will be at the organ. Mrs. Marian Libbey will direct the vested choir. There will be special music for the Service of Holy Baptism.

7:30 Evening Prayer and meditation. A quiet service for those who wish to end the day in thinking upon things worthwhile. 8 p. m. The lecture hour. The rector will talk upon: "One Hundred and Fifty Years of Prayer in America."

Parents please note: You should be at the church and in the vestibule at a quarter of eleven if possible. Parents are urged to bring their children to be baptized. The services of the church are freely given.

PRAYER BOOK SUNDAY

The Presiding Bishop of the Protestant Episcopal Church in America has set aside this Sunday as Prayer Book Sunday. This Sunday marks the One Hundred and Fiftieth Anniversary of our Prayer Book. It was adopted as it now is by General Convention in 1789, on the sixteenth of October. And it is much the same today, except for slight revisions in wording as the years have passed.

It is interesting to Californians to know that the first Prayer Book service ever held in America, was held at Drakes Bay in the year 1579 from the English Prayer Book. The Rev Francis Fletcher, priest of the Church of England, and Chaplain to Sir Francis Drake's ship, the Golden Hinde. The fact of the place and the date is established by Professor George Davidson of the United States Coast and Geodetic Survey. This notable event is marked by a monumental cross in the Golden Gate Park of San Francisco. This cross is known as the Prayer Book Cross. You should make a point of visiting this cross when in San Francisco and in reading its inscription.

H. THOMAS PATEMAN, Rector.

REVOLUTIONIZES COOKING

What every homemaker wants in a range, is an oven she can depend on. The gas range with the CP (Certified Performance) seal offers her an oven that is so radically different from anything ever offered in a range before, that it practically revolutionizes roasting and baking and oven meals.

Think of an oven that will give you any desired temperature with great speed! A miraculous automatic heat control turning heat off and on to maintain the temperature you indicate on the dial, whether you are there or not!

BUSINESS AND PROFESSIONAL WOMEN'S MEET

Grass Valley and Nevada City Business and Professional Women's Clubs host organizations for the fall conference of the northern district, expect about 200 delegates in Grass Valley Saturday and Sunday at the two day meeting, which will have as its theme "One Hundred Years of Women's Progress."

The schedule for the two day gathering in brief will consist of registration at the Bret Harte Inn between 2 and 5 o'clock Saturday afternoon with the executive committee in session at the Bret Harte Inn between 4 and 6 p. m.

The principal Saturday session will be a 7 o'clock dinner and conference meeting at the Elks Club with Lea Pengelly, Grass Valley club president as chairman.

State and district chairmen will gather for an 8 o'clock breakfast meeting at the Bret Harte Inn.

Registration for Sunday will reopen at 8:30 o'clock and will be followed by round table discussions between 9 and 11 a. m.

Sunday's 1 o'clock luncheon meeting will be held at the Boy Scout Lodge in Pioneer Park, Nevada City, with Marion Jones, president of the Nevada City club, as chairman.

Mr. and Mrs. Mosco Smart will spend Sunday at the fair on Treasure Island.

HIGH SCHOOL NOTES

By BARBARA PHARISS

The senior class held a meeting Tuesday afternoon during the sixth period. The class president, Bill Wagner, was in charge. The meeting was called for the purpose of choosing the type of easel for the senior pictures. There will be a choice of two folders and one easel, also postcards. The seniors are asked to have their photographs taken by January by any photographer desired.

SPECIAL ASSEMBLY

Wednesday morning a special assembly was held, taking the place of the 55 minute period. F. H. Bowles of the Curtis Publishing Company was introduced and talked to the students. For several years the school has needed an electric score board. Mr. Bowles presented a proposition for earning one. The students will earn the money and will in turn receive premiums. They are to sell subscriptions to such magazines as The Ladies Home Journal, The Saturday Evening Post, The Country Gentleman and about twenty eight others. The school will receive a percentage of the amount of the subscriptions. The sale will end in one week. Hobart Childers is in charge of all the sales, with two from each class to assist him. The student who sells the most subscriptions will receive a Parker pen and pencil from Mr. Bowles. A score board is very important for games during basket ball season. It keeps the score, the time left to play and a bell at quarters.

THE QUILL

Miss Rector, advisor for the school annual, and Adrianne Barnhart, editor, have chosen their staff. The year book for this school is called "The Quill". The staff consists of 20 seniors and juniors. Several themes have been suggested. This is one of the things that will probably be kept secret until the book is published.

Saturday afternoon the Nevada City Yellowjackets will go to Placerville for a football game with that high school. The game will start at 2:30. The boys will go in the school bus. High hopes are held for the 'Jackets after the good game they played with Gridley last Friday. The entire team will be on hand and will play their best. This is the first game of the season not played on the local turf.

MORE FOR YOUR MONEY IN A KING COLE . . . .

Here's a really big stove value! A genuine Cole heater equipped with the very latest type of oil burner and a high-low range that gives uniform heat day and night. Neat in design, clean to operate, furnishing circulating-radiant heat that eliminates floor drafts and cold corners. Come in and see it today. You will be amazed at its economical price. You will be delighted at its superior performance.

NEW HONOR FOR ROBERT PROCTOR, STUDENT AT U. C.

Robert Proctor of Nevada City who is among 300 Honor Students working on an advisory bureau to aid less efficient undergraduates of the University of California catch up with their studies, will participate in a quarterly drive to offer help to those who receive "cinch" notices October 16.

The advisory bureau, composed of volunteers from the Honor Students Association, will set up a temporary desk behind the long tables in the Wheeler Lobby from which the mid-term delinquency notices are distributed.

The bureau was organized in 1927 to give aid and assistance, not coaching, to undergraduates of the University in these courses they find difficult.

For his work, Robert, a junior in metallurgy, will receive only the satisfaction of guiding some perplexed or bewildered student into proper study habits. He will give from 15 minutes to two hours of friendly counsel, perhaps working a problem or two, perhaps explaining some of the techniques involved in the course.

The Student Advisory Bureau was organized by the Honor Students Association of the University of California as the Freshman Advisory Bureau primarily to put freshmen on the proper path towards success in collegiate study. Soon other undergraduates made it plain that the Honor Students could render the entire university a service by expanding their bureau to its present scope.

HONEYMOON OVER, COUPLE WILL MAKE HOME HERE

Mr. and Mrs. Louis Netz (Josephine Scotti of San Francisco) are making their home here after spending their honeymoon in Southern California.

Three hundred guests witnessed their wedding ceremony which was performed at 7 p. m. September 23 in S. S. Peters and Paul church, San Francisco.

Mr. V. Scotti gave his daughter in marriage. The bride wore a white satin gown and long tulle veil and carried a bouquet of orchids and lillies of the valley. Miss Jeannette Scotti who was her sister's maid of honor was gowned in white taffetta with a bouquet of tuberose begonias and pink sweet peas. The two bridesmaids also carried streamers of sweet peas with their white taffetta frocks. frocks.

Alf Netz was best man and Morris Robert sand Rony Perez, ushers. Over two hundred people were at the reception in the Finnish hall on Hoffman street.

The bride is a graduate of Munson's secretarial school in San Francisco. The groom is active in fraternal circles and is a son of Mr. and Mrs. Ludwig Netz on Factory street. He is at present employed by the Newmont Mining company.

Capt. George A. Nihell will leave today for a ten day vacation in San Francisco and nearby cities with relatives. He will visit the fair.

SALES COURSE OFFERED BY G. V. HIGH SCHOOL

The merchants and salespeople of Grass Valley will be interested in the announcement made today by H. R. Spiess, City Superintendent of Schools, that a program of Education in Selling Methods has been secured for October. At the Hennessy school building, there will be six meetings, held weekly on Wednesday evenings, beginning October 18, at 7:30 p. m.

The material of the course deals with customers, what they like and do not like, and how salespeople can best give them what they want. The "forum" plan will be used in conducting the meetings, beginning with a lecture and following with a discussion by class members of the application of the subject to their own selling problems.

The program follows:

Title: "What Customers Like."

1. October 18. "The First Law of Selling."
2. October 25. "Finding the Happy Medium."
3. November 1. "The Business of Unselfishness."
4. November 8. "Socialibility and Ambition."
5. November 15. "Is Knowledge Power?"
6. November 22. "Making a Profit for All."

The course is offered by the California State Bureau of Business Education and will be in charge of Clark Hallam, teacher coordinator with the bureau. Mr. Hallem was formerly the agent of the National Cash Register Company at Vallejo, and is a salesman and teacher of wide experience. He was eight years in charge of the extension courses in Selling Methods at the University of Southern California. This year, he has been conducting similar courses at Roseville, Woodland, Pittsburg and other cities.

"We are happy to be able to bring this program to the people of Grass Valley who are engaged in the work of distribution," said Superintendent Spiess. "A modern school system keeps up with the times. Efficient distribution of goods and services is one of our greatest economic problems. I am certain that salespeople and employers will find this course a benefit and a privilege"

FIVE HUNDRED TO ENJOY PAHATSI SNOW SPORTS

Over five hundred and fifty campers are expected to use Camp Pahatsi in the Tahoe national forest between December 26 and the first of April according to L. H. Reynolds, camp chairman.

The first group will be from Marin county and will be supplemented by scouts from the local council in the annual Christmas camp December 26 to 30. Groups from all communities in the Tahoe area council will use the camp on designated week ends and groups from Oakland, Berkeley, Santa Rosa and San Francisco will rent the camp for different periods. In addition to these the local Campfire Group will undertake a week end as they have in past years.

Services of caretaker, fuel, use of equipment, maintenance of equipment and operation of the camp is available without charge to all scouts in the local council, as part of the expense of the local council budget. Groups from the outside are, however, to pay for the privilege of the camp's use.

Meals are prepared and served for a nominal charge and all boys desiring a well supervised week end of snow sports and instruction in skiing by experts are given that chance in the scouting program as offered in the Tahoe area council.

Personals

Dr. and Mrs. W. P. Hawkins of Cross street had as guests Sunday Mr. and Mrs. R. T. Neehan and daughter of San Francisco.

E. L. Stone, Tahoe national forest fire dispatcher, spent yesterday at the Truckee ranger station on official business.

Mrs. Elliott M. Smith of San Francisco and Mrs. D. O. Rogers of Burlingame, sisters of Mrs H. M. Leete, left yesterday after a several days visit at the Leete home.
